

6.2 -- CITIZENS ADVISORY COMMITTEES

The Board of Education shall endeavor to keep the people of the Van Buren School District well informed concerning their schools. It shall be the duty of the Superintendent of Schools to insure that an adequate program in keeping with the policy of the Board is in continuous effect.

Whenever the Board of Education launches a new project of great importance to the future of the school system, it shall consider the advisability of appointing an advisory committee of citizens broadly representative of the entire community. These people should be particularly qualified to assist the Board and should make considered recommendations after a thorough study. The advisory committee shall be disbanded when its report has been made.

The Board of Education alone has authority to act.
