

5.3 -- CURRICULUM

Any activity under the auspices of the school and approved by the Board of Education which contributes to the overall development of the child shall be considered a part of the curriculum.

The total curriculum shall be organized in agreement with the philosophy of the school and with the needs of the children uppermost in mind.

The core curriculum shall emphasize mastery of competencies and skills in those areas specified by the State Board of Education and shall follow those guidelines established by the Arkansas Department of Education.

The curriculum shall be flexible and the process of revision and improvement continuous.
